The making and showing of motion pictures became a source of profit almost as soon as the process was invented. Upon seeing how successful their new invention, and its product, was in their native France, the Lumières quickly set about touring the Continent to exhibit the first films privately to royalty and publicly to the masses. In each country, they would normally add new, local scenes to their catalogue and, quickly enough, found local entrepreneurs in the various countries of Europe to buy their equipment and photograph, export, import, and screen additional product commercially. The Oberammergau Passion Play of 1898^{citation needed} was the first commercial motion picture ever produced. Other pictures soon followed, and motion pictures became a separate industry that overshadowed the vaudeville world. Dedicated theaters and companies formed specifically to produce and distribute films, while motion picture actors became major celebrities and commanded huge fees for their performances. By 1917 Charlie Chaplin had a contract that called for an annual salary of one million dollars. From 1931 to 1956, film was also the only image storage and playback system for television programming until the introduction of videotape recorders.

The opening March weekend saw a dramatically lower box office than the same weekend in 2019. The 2019 opening March weekend saw the release of Captain Marvel, which alone earned over US\$3 million domestically that weekend, compared to the 2020 weekends biggest film, Onward, with around US\$1.2 million.²¹²² The next weekend saw the lowest total US box office intake since the October 30–November 1, 1998 weekend, with lower percentage drops than the weekend after 9/11, at US\$1.3 million.³ Onward itself saw the biggest weekend-to-weekend drop of any Pixar film, making \$.5 million, though was still the weekends biggest film and the only one to make over million.³ On March 19, Walt Disney Studios and Universal Pictures announced that they would no longer report box office figures.²³ Comscore therefore announced the next day that it would indefinitely suspend its

reporting of box office estimates and charts.²⁴ On March 26, 2020, after local transmission of the virus had dropped to 0% in China, movie theaters there began to re-open, with reports that 250–500 theaters were opening, but the next day authorities again closed all movie theaters in the country.²⁵²⁶

The Association of Independent Commercial Producers AICP released a set of guidelines and work place practices in early-May 2020 as restrictions began to lift across the U.S. This set included specific guidelines for all departments and worksites involved in productions.¹⁶⁶¹⁶⁷ An industry task force of studios and unions submitted a report on June 1, 2020, with various recommendations on health and safety guidelines for cast and crew of productions. These guidelines include regular testing, wearing face coverings at all times when not filming, actors practicing social distancing whenever possible, reducing or modifying scenes involving close contact, and recommending that casting be performed via videoconferencing or self-recorded video rather than in-person.¹⁶⁸¹⁶⁹
